Dear Gary and Team,

We just wanted to write you this short note to say a big thank you to all your team for the superb job you did on our kitchen. From your help with product selection and design through the build to the completion of the job, you and your guys were so professional.

Your team were polite and courteous at all times, very tidy and very customer focused. We always felt we could get hold of you at short notice and talk through any issues. Your response was always very positive, even when we messed you around several times by changing our minds as to what we wanted.

It is unusual these days that we find a company through the yellow pages that we are so satisfied with. We will unreservedly recommend you and your team to anyone who asks. Similarly you will be the first people we turn to when we need any further work doing on our home.

Once again, thank you so much

Yours sincerely
